Attached for your information are two bills that would require bicycle parking facilities in public buildings. The House bill (H.R. 2118) specifies that the head of each department or agency shall carry out this requirement, and the Senate bill (S. 460) specifies the Administrator of the General Services Administration. Both bills define "bicycle parking facilities" and include details of what such a facility should consist of. Also attached is a statement made by Senator Stafford upon introduction of S. 460.

If you have any comments on these bills, please address them to [Redacted] of my staff.
